Inspection of play ground equipment

Fred say's it's partially done. Four days of rain and one day of snow made it hard to do anything last week. Fred has all the spring toy's up, the swings, tire swing up. Fred will be inspecting the rest of the equipment, gym set, slid as weather permits. The swings are showing wear, they need replacing, will take a look in the summer. The spring toys need spray washing and repainted in the fall. Krista suggested that we could ask the Perry & Laingsburg Art students if they would like to work on the spring toys over the winter. Connie will be getting together with an Art teacher and she could ask her. Fred say's we need to purchase pea stone for under the gym set, wall climb, possible 5 yards. Spring toys does not have pea stone, only ground. Do we need pea stone for the spring toys? Connie mentioned shaved rubber is put down now. Krista will check on pea stone and get back to us. The ring ladder, the landing bars on the single post need to come down to be sanded and painted.

Guest Bill Hall asked Fred about what kind of garden tractor we are looking at. He knows of a medium size tractor that will be coming up for sale. Bill will find out how much, horse power, etc. to give to Fred at our next meeting.

K. Nickols handed each of us rules and regulations for the park for us to look over and relay back any questions she had. K. Nickols mentioned that the lady that was requiring kids for the ball games from Mason for the 10 and under, will be putting that information on the web site.

S. Mendell asked about the sign for the Historical marker in the front of the Hall. K. Nickols says it's paid for, a place has not been totally decided yet. M. Shaft talked about buying a brick and put your name on it to raise money.
